1 Roll the 3 consonant dice. All players try to find, as quickly as possible, a word containing at least these 3 consonants.

2 When a player finds a word, they start a countdown out loud.

BACHELIER! 9...8...7...

3 If another player finds a shorter word during the countdown, they start a new countdown out loud.

CRABE! 5...4...3...

4 When nobody can suggest a better word, the player who found the shortest word earns as many points as there are letters in their word.

The first player to reach 36 points wins!

CONTENTS

- 3 consonant dice
- 1 vowel die
- 1 notepad
- 1 pencil
